# Two-thirds of EV charging stations sit in just five Java provinces

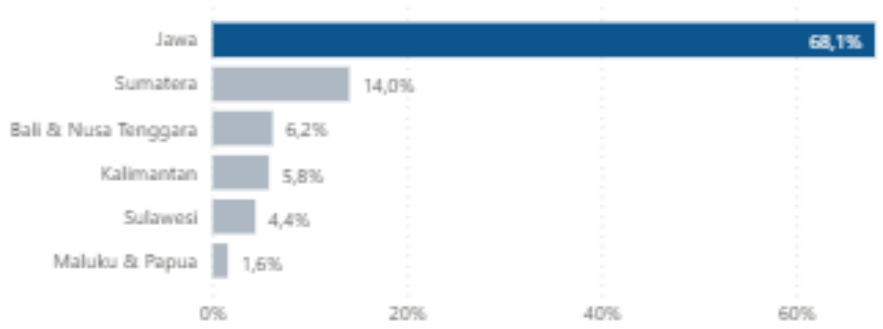

Island: All | Province: All | Provider: All

| 3028 | 34 | 68,1% | 11,5% |
|---|---|---|---|
| Total Stations | Provinces Covered | Java Share | Ultra-Rapid Share |

## Stations by province (top 10)

## Share of stations by island

**Key insight**

DKI Jakarta, Jawa Barat, Banten, Jawa Timur, Jawa Tengah together hold 67.0% of the stations in view.

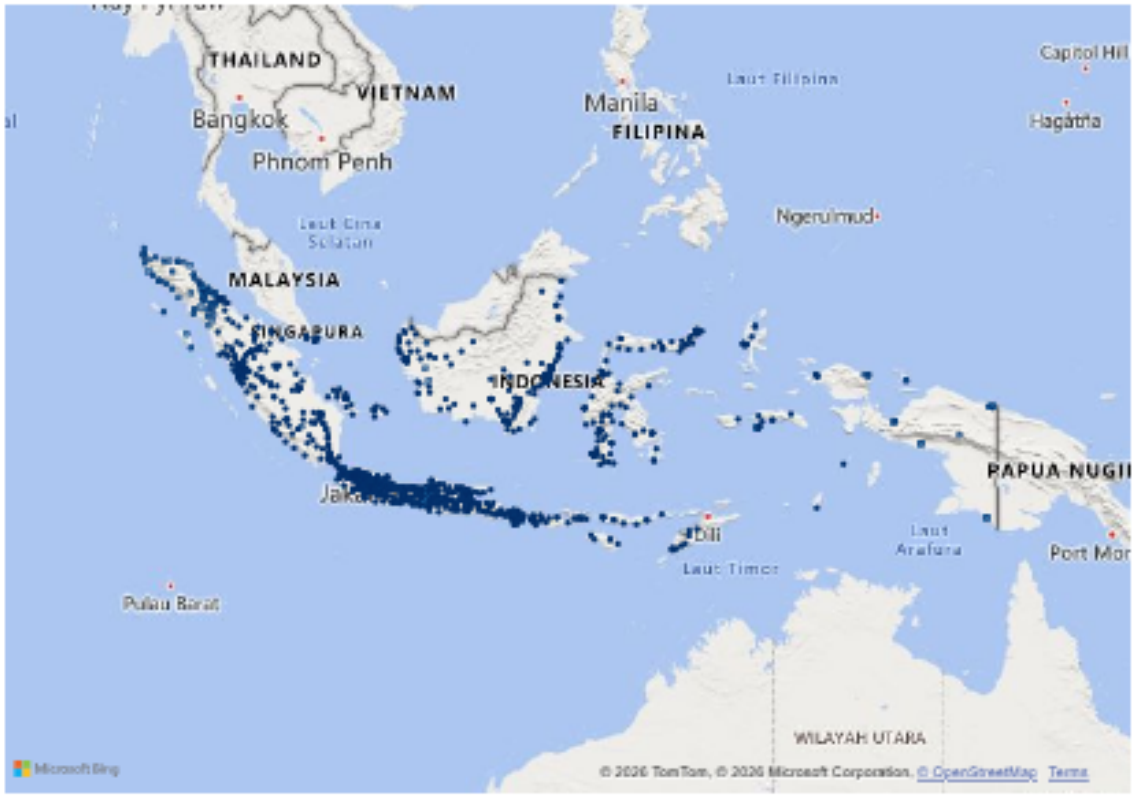

Geocoded dataset of public EV charging stations in Indonesia (Mendeley Data). Snapshot with no date column. n = 3,028 stations (1 incomplete record excluded)

Overview | Geography | Providers | Power quality

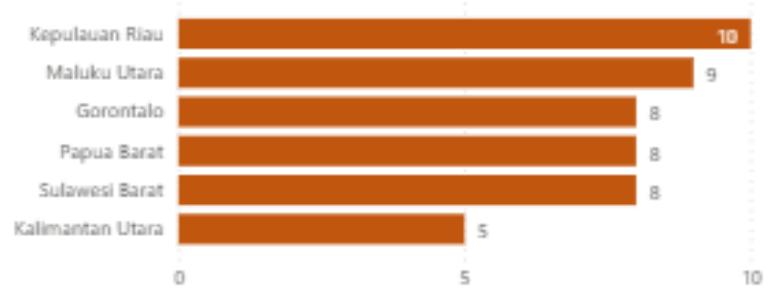

# Outside Java the network thins out, and Maluku and Papua hold only 1.6% of stations

Island: All | Province: All | Provider: All

## Where the stations are

## Provinces with the fewest stations

**Read with care.** This dataset has no demand or usage data, so few stations does not prove an area is underserved. A per-capita view is a natural next step.

**1,6%**

Maluku Papua share of all stations

Geocoded dataset of public EV charging stations in Indonesia (Mendeley Data). Snapshot with no date column. n = 3,028 stations (1 incomplete record excluded)

Overview | Geography | Providers | Power quality

# PLN runs 62% of stations, while independent operators lead in high-power charging

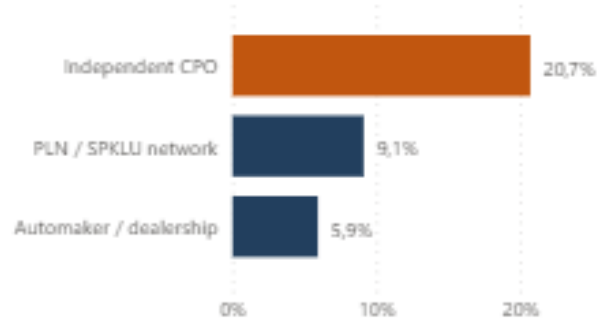

Island: All | Province: All | Provider: All

## Stations by provider type

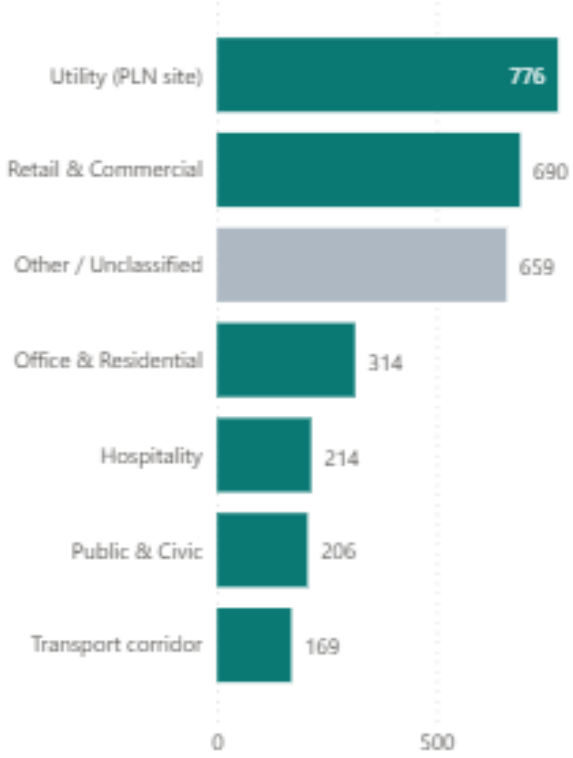

| | |
|---|---|
| PLN / SPKLU network | 1876 |
| Independent CPO | 715 |
| Automaker / dealer... | 405 |
| Other / unknown | 32 |

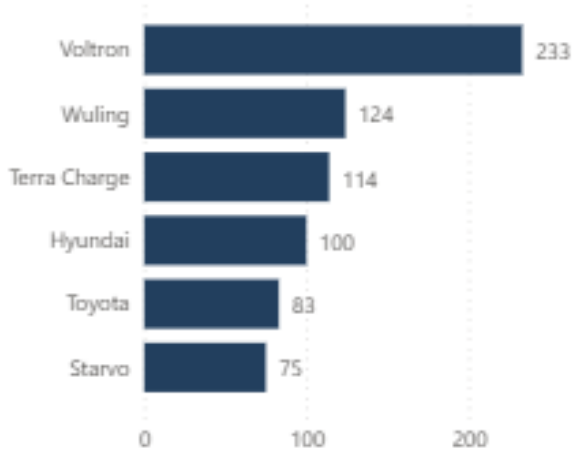

## Ultra-rapid share by provider

## Stations by location type

## Largest named operators

**Data gap.** 63% of stations have no operator brand recorded, so this ranking covers only named operators

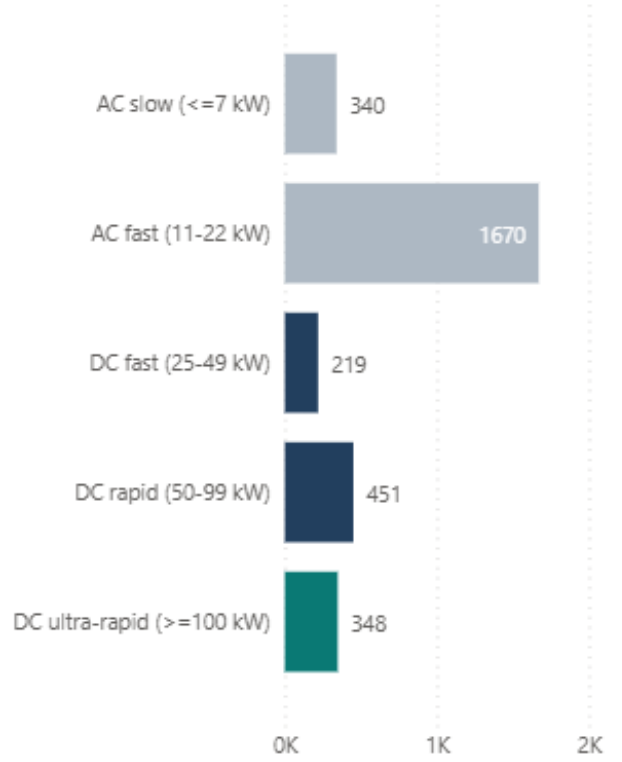

Geocoded dataset of public EV charging stations in Indonesia (Mendeley Data). Snapshot with no date column. n = 3,028 stations (1 incomplete record excluded)

Overview | Geography | **Providers** | Power quality

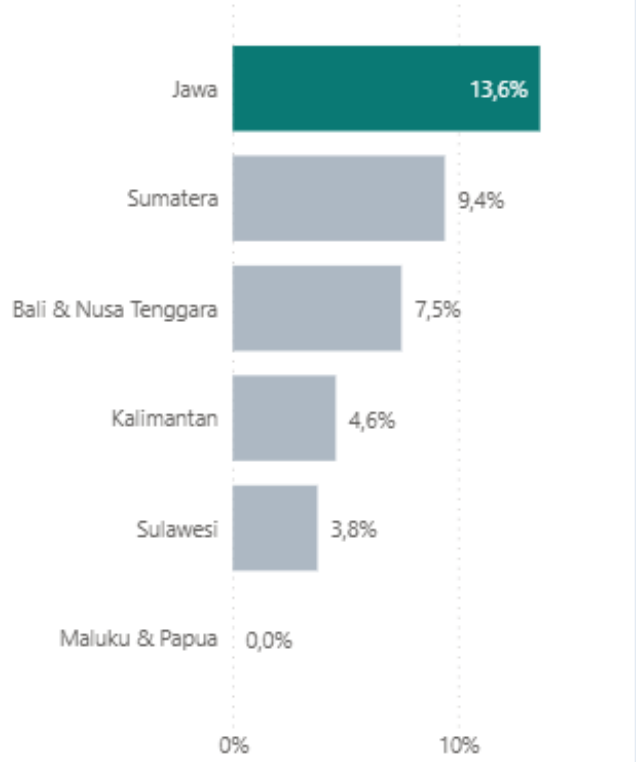

# Ultra-rapid charging is concentrated in Java and absent in Maluku and Papua

Island: All | Province: All | Provider: All

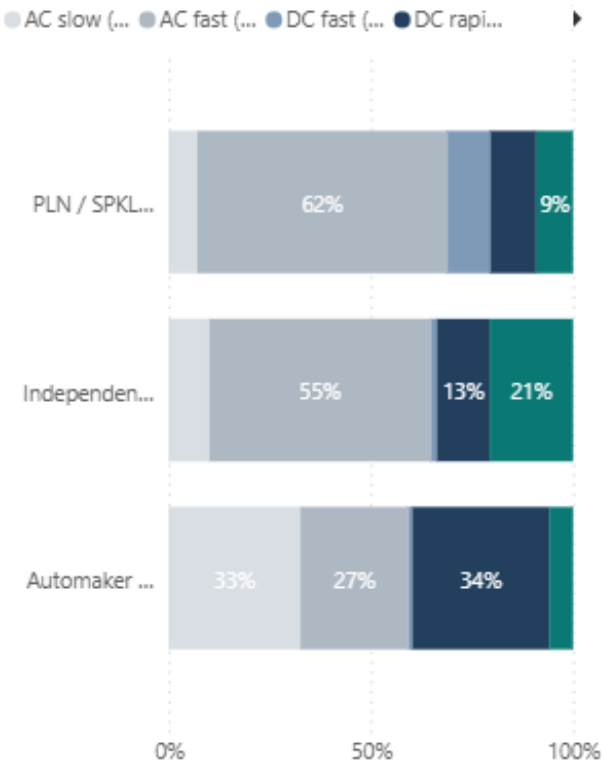

## Stations by power tier

## Ultra-rapid share by island

## Power mix by provider type

Geocoded dataset of public EV charging stations in Indonesia (Mendeley Data). Snapshot with no date column. n = 3,028 stations (1 incomplete record excluded)
